

Cree Board of Health and Social Services of James Bay

Come and live the adventure of working in the James Bay region!

Communities

- Regional Hospital in Chisasibi
- 8 other communities have “Miyupimaatisiun Centre” clinics
- Specialist services available (urgent and out patient) in Val d’Or, Chibougamau and Montreal with Cree Patient Services liaison offices
- 8 of the 9 communities have road access (no road to Whapmagoostui-Great Whale)

Chisasibi Regional Hospital

- 29 bed ward (adult and pediatric)
- Emergency department, out patient and community health clinics
- Team of family physicians: 6-7 on average during the day, sharing of in-hospital calls, 2nd doctor on call at all times
- Laboratory technicians 24h/24h
- Xray imaging 24h/24h; ultrasound machine available for doctors; emergency bedside ultrasound purchase is in progress

Chisasibi Regional Hospital

- Dentistry, physiotherapy, nutrition, occupational therapist, psychoeducation (and respiratory technician in near future)
- Regular specialist visits:
 - Pediatrician
 - General and maxillo-facial surgeons
 - Psychiatrist
 - Ophthalmologist, optometrist
 - ENT
 - Internal medicine in near future

Community Miyupimaatsiun Centres

- Community clinics where nurses practice with extended clinical responsibilities (“rôle élargi”)
- Family physician is present at least 1 week/month to support nurses, work in out patient clinics, and provide on-call duty for the community from home (some villages have a physician present all the time)
- Most have dentistry services as well as visiting specialists

Population - Cree of Eeyou Itschee

- 16,000 people living in 9 communities and scattered throughout the territory at hunting camps, mine sites, hydroelectric installations and logging camps
- Cree is the first language of most Cree people
- Most speak English as a second language; a growing number speak French (many elders only speak Cree)
- Traditional activities, “bush diet” and ways of life are important aspects of health

Living in Eeyou Itschee

- Vast territory covering 450, 000 square km
- Flora: ranges from taiga in the south to tundra in the north
- Cold winters with lots of snow, variable weather in spring and fall, and warm and pleasant summers
- Outdoor activities: skiing, snowshoeing, snowmobiling, hiking, fishing, hunting, canoeing, biking, berry picking and much more!
- Cultural activities all year long
- Indoor pool and gym in Chisasibi
