

CLINICAL NURSE (1911)

PERMANENT FULL-TIME

DEPARTMENT:	Mental Health (011309)
WORK LOCATION:	Ouje-Bougoumou
UNION:	FIQ
STATUS:	1 - Permanent Full-Time
HOURLY SALARY:	Min. (1) \$26.28 – Max. (18) \$47.04

SUMMARY OF THE POSITION

Person who provides a variety of nursing services according to the bio-psycho-social needs of the users or groups of people under her/his care. She/he evaluates the health condition of users; determines and implements treatment and nursing care plans for users with complex health problems and/or problems that involve various biological, psychological and social aspects. She/he provides nursing and medical care and treatments aimed at maintaining and restoring health, and preventing disease.

She/he conceives implements and evaluates health care programs that require advanced knowledge and that are aimed at solving complex health problems and/or problems involving various biological, psychological and social aspects. This person is involved in the development or adaptation of clinical tools and health care quality evaluation tools. **She/he coordinate teamwork and plays an advisory role for mental health clients within the interdisciplinary team.**

She/he identifies, for the users, the needs and interventions that require the coordination of different services within the establishment and between different establishments or related organizations. If applicable, she/he ensures the coordination of these services.

She/he is responsible for the orientation of new mental health personnel and is involved in their training. She/he supervises teaching activities aimed at the users and their relatives, and at groups of people in specific program. She/he also collaborates in research projects.

SPECIFIC FUNCTIONS

- Evaluates and assesses the mental health status of clients and determines their mental health service needs;

- Collaborates with professionals, mental health liaison nurse, mental health workers and others to provide a case management approach to each individual client and meet his / her service needs;
- Collaborates with the interdisciplinary teams to support the smooth integration of the clients in their natural environment;
- Refers clients to the appropriate level of therapeutic intervention needed to meet their mental health needs. These interventions could be local supportive consultations, second-line consultations, or tertiary care inpatient interventions. To assist in this decision-making process, the nurse consults the referral resources that are available to the nurse.
- Schedules a multi-disciplinary meeting on each psychiatrist visit;
- **Contribute to community prevention, promotion and awareness activities in collaboration with the multidisciplinary team and local partners to avoid working in silos.**

REQUIREMENTS

Education:

- Member in good standing of the O.I.I.Q;
- Bachelor of Science in Nursing or an undergraduate degree consisting of three (3) admissible certificates, of which two (2) are accredited certificates in Nursing;
- Holder of the training Nonviolent Crisis Intervention or OMEGA or willingness to follow it.
